Faculty Coordinator:- Mr. Sushil Kumar

Student Coordinator: - Ajeet Kumar, Kiran Sharma

Dr. Shalbha Chaudhary (Head of Women Grievance cell) in R.D. Engineering College, Duhai the Resource Person of the session Education is part of the foundation of all progress and growth both as an individual and as a society.it is dependent on multiple factors- the availability of stationery items is one of them. Stationary is the first thing along with books comes in our mind when we think or talk about education. It is the basic requirement for learning. Pencils, erasers, sharpeners, tools of geometry, notebooks are some basic stationery items without these items student won't be able to write and it will restrict their creativity and thought process. i.e., When a child starts learning alphabets, teachers help them to write it, in this activity children are not only recognizing the shape of the alphabets, but it also helps develop the child's fine motor skills to control their hand movement by using different pressure on pencil to write. It is an inseparable and essential part of a student's life. These are useful for students in school as well as home. But not many students are blessed enough to have these basic and essential things in their life because of their poor economic condition. We in Paragraph are trying our best to reach out to many such kids in every possible way.

During this program **Mr. Anuj Tyagi** the gram pradhan of village Basantpur saintli also present there and appreciated the students and give support to organized this program in a better way

The outcomes of Stationary Distribution for Poor Children were follows as:-

- Promotion of Equality: Stationary distribution promotes equality by ensuring that all students regardless of economics creating a more positive teaching environment.
- Enhanced classroom Participation: Equipped with necessary stationary students can actively participants in classroom activities leading to increased engagement and a more positive learning experience.
- Encouragement for Lifelong Learning: Free Stationary ensure that economically disadvantage students have the basic tools needed for learning barriers to access education.

Name of the Activity: -Women Empowerment And domestic Violence Awareness Program

Date of Activity: 08-March-2022

Resource Person: Mrs. Seema Luthra (Assistant Professor)

Faculty Coordinator:- Ms. Jyoti Rai

Student Coordinator: - Astha Verma, Anil Tyagi

Mrs. Seema Luthra (Assistant Professor) of R.D. Engineering College, Duhai the Resource Person for the session said Women empowerment refers to the creation of an environment for women where they can make their own decisions of their well being as well as for society. With regard to the current scenario, the question is that "are women become really strong? Many programs have been implemented and run by the government such as International women's day, Mother's day and so on in order to bring awareness in the society about the true rights and value of the women in the development of the nation. There is a high level of gender inequality where women are ill-treated by the family members as well as by the society, the real meaning of the women empowerment is to make them educated and leave them free so they can make their own decisions for their well being. In modern India women have held high offices such as President, Speaker of Lok Sabha etc women in India now also have participated in many activities like games, education, politics, media and so on. India needs to take some advance steps to improve the women positions through proper education and economic participation.

During this program **Mr Anuj Tyagi** the gram pradhan of village Basantpur saintli also present there and appreciated the students and give support to organized this program in a better way

Name of the Activity: - Stationary Distribution for Poor Children

Date of Activity: 14- November 2018

Resource Person: Dr. Sanjay Paliwal (Deputy Director)

Faculty Coordinator:- Dr. Gaurav Bansal, Shalbha Chaudhary

Student Coordinator: - Himanshu kumar , Abhishek Sharma

Sanjay Paliwal (Deputy Director) in R.D. Engineering College, Duhai the Resource Person of the session Education is part of the foundation of all progress and growth both as an individual and as a society. It is dependent on multiple factors- the availability of stationery items is one of them. Stationery is the first thing along with books comes in our mind when we think or talk about education. It is the basic requirement for learning. Pencils, erasers, sharpeners, tools of geometry, notebooks are some basic stationery items without these items student won't be able to write and it will restrict their creativity and thought process. i.e., When a child starts learning alphabets, teachers help them to write it, in this activity children are not only recognizing the shape of the alphabets, but it also helps develop the child's fine motor skills to control their hand movement by using different pressure on pencil to write. It is an inseparable and essential part of a student's life. These are useful for students in school as well as home. But not many students are blessed enough to have these basic and essential things in their life because of their poor economic condition. We in Paragraph are trying our best to reach out to many such kids in every possible way.

During this program **Mrs. Arnima Tyagi** the gram pradhan of village Basantpur saintli also present there and appreciated the students and give support to organized this program in a better way

The outcomes of Stationary Distribution for Poor Children were follows as:-

- Improved Access to Education: Free Stationary ensure that economically disadvantage students have the basic tools needed for learning barriers to access education.
- Enhanced classroom Participation: Equipped with necessary stationary students can actively participants in classroom activities leading to increased engagement and a more positive learning experience.
- Boost in Confidence: Access to new stationary can boost student's confidence providing them with a sense of equality and reducing any feelings of stigmatization related to economic disparities.

Gender Audit Report

The Gender Audit directed at R.D. Engineering College Ghaziabad, by an inner group, planned to evaluate orientation value and recognize regions for development. The picked system guaranteed thorough inclusion of the topic, gathering perceptions and discoveries for each distinguished orientation touchy marker.

The College gives specialized training to scholarly, offering projects, for example, B.Tech., M.B.A., and M.C.A. Advancing ladies strengthening and orientation correspondence is given huge significance, with courses like "Introduction to Women's and Gender Studies" remembered for the normal educational program.

During the Audit, it was seen that the College has done whatever it may take to guarantee the security and prosperity of female Students. Separate Common room with sufficient sterilization facilities are accommodated young ladies. CCTV cameras are introduced across the grounds, upgrading security, and both male and female safety officers are accessible nonstop.

To improve gender equality and advance impartial practices, useful suggestions are proposed. These remember advancing orientation free exercises for widespread developments, scattering data through workshops, tending to worries brought up in the study as to, cleanliness, and common room spaces for young ladies, directing preparation programs for staff and workforce, laying out help administrations for female understudies, empowering comprehensive language and correspondence, advancing ladies' authority, and observing and assessing orientation value drives.

Executing these proposals will effectively advance orientation fairness, bring issues to light, furthermore, establish a comprehensive and strong grounds climate at R.D. Engineering College Ghaziabad helping all understudies.

Director
R.D. Engineering College
Duhai, Ghaziabad

Introduction: R.D. Engineering College as a profoundly respected instructive college in the more prominent Ghaziabad/Delhi-NCR Region, focusing on quality education. Perceived as one of the best designing and the board universities in Uttar Pradesh, RDEC is devoted to offering exhaustive help and assets to understudies, guaranteeing their all encompassing improvement and a strong starting point for a prosperous future. The organization offers undergrad projects like B.Tech, as well as postgraduate projects including MBA and MCA.

Objective: The most common way of showing individuals orientation jobs and assumptions starts right off the bat throughout everyday life, and it's critical to begin making changes very early in life to shape perspectives and ways of behaving. Colleges play a critical part to play in this cycle since understudies invest a great deal of energy with their friends in these settings. To achieve long haul and reasonable social change, it is critical to lay out sure accepted practices in instructive establishments that esteem orientation uniformity what's more, advance mindfulness about orientation related issues.
