Technology Based Entrepreneurship Development Programme (TEDP) through online platform
Guidelines & Format

Technology Based EDP primarily focuses on training and development need of S&T entrepreneurs in a specific technology area (for example, Leather, Plastic, Electronics & Communication, Instrumentation, Sports Goods, Bio-technology, IT, Computer Hardware, Food Processing, Bio-medical Equipment, Glass & Ceramics, Herbs & Medical Plants Processing, etc.). Participants are provided with insight about indigenous technologies available/developed by R&D institutions for commercial purpose.

Target Group: In each TEDP up to 30-40 potential entrepreneurs are permissible having degree/diploma (three years) in S&T are expected to be trained through a structured online training programme of 4 weeks duration. Trainees are selected through various tests and personal interview to assess their potential of becoming entrepreneur. During the training period, participants also get to know the intricacies of how to start and manage an enterprise. At the end they are assisted in preparing a detailed business plan. TEDP provides class room training on all aspects of entrepreneurship, motivation, management areas besides actual hands-on training in the specific technology areas.

Programme Objective: TEDP is a structured training programme designed to motivate and develop entrepreneurs in specific Products/ technologies / processes developed by CSIR labs, R&D institutions, universities etc.

Programme Duration: 4 weeks
