Making decisions is a fundamental part of life. We make decisions and choices all the time, from the moment we get out of bed in the morning until the end of the day. Whether it is your professional or personal life, you are typically determined by your decisions. While certain actions, like brushing your teeth and bathing, are routine and nearly automatic, other actions, like setting your daily schedule, only need little decision-making. However, good decision-making abilities are crucial in professional surroundings since they will influence how you develop personally and professionally. Your choices can affect other employees and even the company's reputation, depending on your position.

Hello sir

The extra-curricular activities in soft skill development for the students have proven to contribute much to their personality development and logical thinking. So our college decided to organize a seminar on Personality Development where students will enhance their soft skills and logical thinking.

In view of this, Our Institution would like to request you to conduct a Seminar/Workshop with the given theme: "Personality Development" to be facilitated to the whole MCA students.

Hoping for your favorable response about the matter.

Thank you very much.
